Thank you for your interest in our Industrial Fire Training Program. Delivery of our 24 Hr. Basic Exterior Industrial Firefighting course is facilitated at both our training facility in Port Arthur, Texas, and at the Calcasieu Emergency Response Training Center (CERTC) in Sulphur, Louisiana. Each training day will begin at 8 a.m. and run until 5 p.m.

### Training Synopsis

This course is a Basic Exterior Industrial Firefighting Course. This course was developed to serve as an introductory course for new exterior industrial fire brigade members. All blocks of instruction are facilitated by certified instructors who will present all classroom instruction and conduct all field training evolutions. All blocks of instruction meet or exceed all federal statutory requirements and national consensus standards. Some of the Occupational Health & Safety Administration requirements and National Fire Protection Association standards that are addressed include:

- OSHA 29 CFR 1910.156 – Industrial Fire Brigades
- NFPA 600: Standard on Industrial Fire Brigades
- NFPA 1081: Standard for Industrial Fire Brigade Member Professional Qualifications
- NFPA 1561: Standard on Emergency Services Incident Management Systems

### Topics covered during course delivery will include the following:

#### Day One & Two – Classroom Lecture & Skills:

- Industrial Fire Brigade Organization and Responsibilities
- Fire Behavior
- Personal Protective Clothing & Equipment/Self Contained Breathing Apparatus
- Fire Hose, Nozzles, and Appliances: Types and Use
- Portable Fire Extinguishers
- Fire Detection and Signaling Systems
- Fixed Fire Extinguishing Systems
- Hazard Recognition
- Incident Management
- Loss Control

#### Day Three – Live Fire Training at CERTC:

- Fire Fighter Safety
- Hose Handling
- Fire Ground Command
- Emergency Operations
- Firefighting Strategies & Tactics
- Firefighting Foam Application

- Live Fire Training with Class B Fuels
