

The Emergency Response Company

PRESS RELEASE

March 5, 2010

Deer Park, Texas (all divisions)....February 28, 2010 has surpassed **2 million+** man hours (still counting) without an LWDII (Lost Work Day Injury or Illness). In addition, we have exceeded 700,000 man hours without a “recordable” injury/illness. This success is the direct result of exemplary personnel, with a resolve to perform daily functions & tasks, with our basic safety code in mind...” **Plan your Work – Work your Plan”.**

As a premier response company, with daily challenges and exposures to unknown/hazardous environments, the benchmark achievement demanded **5 years, 7 months** of daily safety awareness, by every employee, supervisor, manager and support personnel. By any measure, in any industry, this is an enviable accomplishment.

I extend my personal gratitude and appreciation, to each and every employee that contributed to this milestone of success.

W.S. (Scotty) Bourgeois

Vice President, HR, HSE & Training
